

NAJMINA KINANTI PUTRI

Software Engineer

najminakinantiputri@mail.ugm.ac.id | (+62) 821-2214-0493 | Depok, Sleman

Undergraduate student in Software Engineering Technology at Universitas Gadjah Mada with hands-on experience in full-stack web and mobile development. Skilled in building web applications using Laravel, Vue.js, Next.js, Tailwind CSS, Bootstrap, and MySQL, as well as mobile apps with Flutter and Kotlin. Experienced in end-to-end project development, performance optimization, and system maintenance. Fast learner, adaptable to new technologies, and effective in both independent and collaborative team environments. Interested in contributing to front-end and mobile development projects while further enhancing technical expertise.

EDUCATION

| | |
|---|--------------------|
| SMA Negeri 1 Cibinong - Kab. Bogor, Indonesia <i>Senior High School</i> | 2020 - 2023 |
| Universitas Gadjah Mada - Yogyakarta, Indonesia <i>Bachelor of Applied Science Software Engineering Technology</i> CGPA 3.84 out of 4.00 | 2023 - 2027 |

PROJECT EXPERIENCES

| | |
|---|-------------|
| FUNDation Mobile Developer <ul style="list-style-type: none">A mobile application designed to facilitate seamless interaction between event organizers and potential sponsors. I contributed to implementing the user interface, integrating APIs, and optimizing application workflows to support targeted sponsor search, event proposal management, and event publication. This project aims to streamline the sponsorship process and improve usability across mobile devices.Technologies: Flutter, Dart | 2024 |
| PANDJI Mobile Developer <ul style="list-style-type: none">Developed a mobile application to digitalize the membership management process for a community organization from national to regional levels. Contributed to implementing member registration, data verification, e-ID (e-KTA) issuance, and integration with a web-based management system. Focused on creating an intuitive user interface, API integration, and optimizing the registration and e-ID validation workflows to ensure faster, more transparent, and well-structured member data processing.Technologies: Flutter, Dart | 2025 |
| TEMPLOK Front-End Developer <ul style="list-style-type: none">Developed the web interface for a UMKM directory platform in Yogyakarta, focusing on creating a responsive, informative, and user-friendly design. Responsible for implementing UI/UX principles, building page components, managing navigation flow, and presenting well-structured static data. This project emphasizes a fast, clear, and fully intuitive user experience through front-end development.Technologies: Vue.js, Vite, JavaScript, Tailwind CSS, HTML | 2025 |
